Visit Naturalpetexpo.net for more information today!

If you are looking to connect with customers that care about pet wellness the **Natural Pet Expo** is for you! Since 2004, our mission at the **Natural Pet Expo** is to educate pet owners on natural nutrition, behavior and spirit - strengthening bonds between humans & animals by connecting companies & customers.

Natural Pet Expo - A Partnership to Spread Information on Natural Pet Wellness:

In 2010, the **Natural Pet Expo** is celebrating our 7th year of building the natural pet community. We have built a reputation for providing information and education on natural care for our animal friends. We do this by gathering the best companies, products and experts devoted to advancing Natural Pet Wellness. We provide a strategic marketing program and the perfect live venue to showcase your products and services dedicated to natural, holistic, organic and alternative care for pets & their families. This year our theme is Green & Sustainable products and services.

Natural Pet Expo Attendees - Actively Seeking Information on Natural Pet Care:

The **Natural Pet Expo** attracts pet owners that are eager to learn and gather the latest information on natural food, nutrition, health care and pet behavior. Our event educates pet owners through a unique blend of Live Speakers, Authors, Q&A opportunities, Rescue & Pet Adoptions, Vendors, Food, Games, Entertainment, Fun & more. Our event offers a unique opportunity to establish and strengthen your brand or service through direct contact with customers interested in natural, holistic, organic & homeopathic care.

Natural Pet Expo Mission - To Increase Education and Awareness of Natural Pet Wellness:

Natural Pet Expo supports not-for-profit organizations by donating a percentage of our net profits each year to key organizations that support our mission.
